

We are looking for the following to strengthen our team

Speculative application in the upscale residential construction sector.

The company:

We are an owner-managed, medium-sized project development company with a focus on the development and turnkey construction of upscale residential properties in the greater Cologne area. Our company is managed in a dynamic and highly employee-friendly manner and has been enjoying very healthy growth for years.

In this context, you are welcome to send us an unsolicited application if one or more of the following points appeal to you:

Our requirements profile:

- you have successfully completed a (construction) technical degree, for example in architecture, civil engineering, industrial engineering, construction management or equivalent, and would like us to train you as a project manager
- you have completed a commercial apprenticeship as a real estate clerk, construction clerk or equivalent or have completed a dual course of study in the field of real estate management and would now like to start your career
- you already have professional experience and are looking for a new challenge in the above-mentioned areas
- you would like to bring in more own initiative as well as a sense of responsibility, organisational skills, dynamic and solution-oriented action
- you can understand complex interrelationships, are dynamic, assertive and communicative and want to make a difference
- you have a very good grasp and can put theory and practice into context
- you have a healthy degree of self-reflection and ambition as well as the will to shape things
- you have the ambition for long-term professional and personal development

If this is you, then you may be exactly the person we are looking for here.

In any case, we are already looking forward to receiving your application and a first personal interview.

Your incentives:

- appreciative and supportive corporate culture; dynamic and reliable team
- very competitive salary package with future potential and numerous benefits
- long-term development prospects on a professional, personal and monetary level; opportunity to obtain eligibility for entry into the Chamber of Architects
- very good transport links (motorway and public transport); pool cars and much more

Place of employment:

Cologne/Frechen-Königsdorf

We look forward to receiving your application.
